

# PLANNING TO DO SOME EXTRAORDINARY GRAPHICS?

## EVER THOUGHT OF USING AN EXTRA WIDE MAGNET?

Whether it's point of purchase, signage or display graphics, Magnum Magnetics® DigiMag® and DigiMaxx® are the highest quality printable magnetic sheeting in the business. Available in a wide variety of thicknesses, widths and laminates, DigiMag and DigiMaxx can be used to create changeable graphics for any application using solvent/eco, U.V. and latex wide format inkjet systems.

**With Magnum Magnetics' DigiMag and DigiMaxx from Ariva® you can print extraordinary graphics on an extra wide magnet – up to 48 inches!**

### DIGIMAG

DigiMag is a versatile magnetic substrate available in 24.375" wide and comes in a variety of roll lengths from 25' up to 200'. This allows you to print directly to the magnet without the need to over-laminate. Furthermore, the material can be cut to shape with cutters, plotters or even a pair of scissors.
