

Adhoc Jet

Monomeric PVC Vinyl

An Ariva exclusive, Adhoc Jet Monomeric PVC Vinyls are suitable for solvent, eco solvent, latex and U.V. cured inkjet systems. Adhoc Jet is engineered for application to flat or slightly curved surfaces, for indoor use or short term exposure outdoors.

Adhoc Guard, the companion over laminate, prolongs the life of your graphic by protecting it from scratches, abrasions and the effects of U.V. sunlight.

With four factories in Italy, Spain, Brasil, and the USA, Arconvert is an integral member of the

Fedrigoni Group family. With its Adhoc Viscomm line, it is a global market leader in the development and production of self-adhesive PVC films for use in point-of-purchase, flexible signage, promotional advertising and other graphic applications.

Products

Adhoc Jet 3000 series is a 3.1 Mil promotional pressure sensitive vinyls available in white gloss or matte with a permanent or removable opaque adhesive or gloss clear with a permanent or removable adhesive.
