

Pressure Sensitive Media

PRESSURE SENSITIVE VINYL – AQUEOUS

Ariva's aqueous economy vinyl has a water resistant coating that easily accepts ink so vibrant graphics are assured. A matte calendared vinyl with a permanent pressure sensitive adhesive on a 6mil release liner, our vinyl is best used for short-term flexible or mounted signs and banners. For longer-term applications, use UV inks and our laminates.

FEATURES:

- Economy vinyl
- High colour gamut, low dry time
- 6mil release liner

BENEFITS:

- Meets most budgets
- Produces high quality printed imagery
- Improved handling

APPLICATIONS:

- Flexible or mounted signs & banners
- Apply to textured or smooth surfaces
- Indoor/outdoor durable
- Photo reproduction

PRESSURE SENSITIVE VINYL – SOLVENT/ECO

Our Ariva solvent vinyl is a full 4.5mil caliper and easier to apply than other thinner 3 or 4mil products while at a better price point. Made of calendared flexible vinyl. Produce your jobs with amazing colour reproduction and image definition. Permanent, solvent adhesive works well on any application requiring strong adhesion. Available in glossy or matte finish.

FEATURES:

- Competitive pricing
- Smooth glossy or matte surface
- 4.5mil caliper

BENEFITS:

- Improve profitability
- Outstanding print results
- Easy handling and application

APPLICATIONS:

- POP display
- Flexible or mounted signage
- Photo reproduction
- Indoor/outdoor use

PRESSURE SENSITIVE VINYL – SOLVENT/ECO

MACtac JT828P is a 3.9mil matte white, soft-calendered PVC film designed for UV and solvent-based inkjet printing. The product is coated on one side with a clear permanent, acrylic pressure sensitive adhesive and supplied with a 74# Kraft liner. JT828P is designed for general purpose indoor and short-term outdoor advertising and promotion on flat or slightly curved surfaces.

MACtac JX5828R is a 3.7mil intermediate printable vinyl film designed for application on flat or slightly curved surfaces. JX5828R has an acrylic removable opaque adhesive with an outdoor life expectancy of up to 4 years.

MACtac PVG828R is a 3.9mil intermediate opaque print vinyl designed for short-term indoor and outdoor applications on flat and slightly curved surfaces for up to 4 years.

Removability: Outdoor 2 yrs.

FEATURES:

- Permanent, clear, acrylic adhesive

APPLICATIONS:

- General purpose indoor signage
- Outdoor advertising and promotion on flat or slightly curved surfaces

PRESSURE SENSITIVE VINYL – SOLVENT/ECO

Avery Dennison® PC MPI 3300 gloss and matte series are flexible, calendered vinyl films that deliver vibrant and consistent print images at an exceptional value. Avery MPI 3300 and 3303 Gloss feature a gray permanent adhesive designed for short- to medium-term promotional graphics while the Avery MPI 3301 and 3302 offer a clear and gray adhesive for promotional applications requiring removable adhesive performance.

FEATURES:

- Prints exceptionally well with most solvent, eco solvent and UV-curable inks
- Four year durability at a competitive price
- Image consistency with no costly reprints
- Easy-to-handle construction reduces processing and installation time

APPLICATIONS:

- Wall murals
- POP/tradeshows
- Outdoor signage
- Floor graphics with companion Avery DOL laminates

FLEET GRAPHICS PRESSURE SENSITIVE CAST VINYL – SOLVENT/ECO

MPI 1105 Supercast films provide improved conformability along with easy application and long-term removability. Combined with Avery DOL films, you'll achieve great printability and colours that pop. We stock Avery MPI 1105 Supercast Easy Apply RS™ with LTR (long-term removable) technologies to meet most vehicle, fleet graphic or architectural application needs.

Easy Apply RS™ – Facilitates the positioning of the film as it 'stands-off' the adhesive from the surface until pressure is applied. This makes applications easier, as the film can be slid into the correct position, reduces application time and thus lowers overall job costs.

LTR – Long-term removability is a proprietary technology that enables the film to be removed cleanly for up to five years.

Avery DOL 1360 Z 1.3mil optically clear gloss is a premium cast overlamine with outstanding conformability making vehicle wraps even easier. Ultra-thin 1.3mil film ensures graphics will conform easily. Eliminates 'silvering' effect on UV-printed images.

FEATURES:

- Enhanced conformability provides resistance to tenting and lifting
- Expanded colour gamut capability
- High gloss and smooth face make images and colours pop

BENEFITS:

- Faster, easier installation
- Stays down over complex curves and rivets, improving long-term look of graphics
- Image consistency with no costly reprints
- Smooth, paint-like finish

MOUNTING, MASKING & MISCELLANEOUS

MACtac's application tapes – also known as Premask – are designed to assist in the application and transfer of pressure sensitive decals. Additionally employed for protection of screen printed, digitally printed or polished surfaces during storage or shipment. Available in medium tack (MACtac 210) for large format graphics or high tack (MACtac 220) for cut vinyl graphics.

MACtac's Paint Mask is a specialty vinyl film with an ultra-removable adhesive most often used in the application of decals and letters. It also functions as a mask for custom painted graphics.

MACtac's Permacolor Gemini XT is an economical general purpose mounting film designed with one release liner and a rubber-based high bond adhesive for use on all types of surfaces. PP5600 consists of a thin, clear polyester film coated on both sides with a clear rubber-based, pressure sensitive adhesive. A white, polycoated 2-side, moisture stable paper liner protects the adhesive.
